

PETROMIRALLES

MAXIMUM SECURITY BENEFITS FOR YOUR FUEL CARD

INSTANTANEOUS BLOCKING OF CARDS BY THE CUSTOMER

In order to avoid unpleasant consequences of loss or theft of fuel cards, customers can block and unblock their fuel cards with immediate effect within the Advanced Customer Area at the Petromiralles web site.

The application allows complete control of the activity of the cards, for example blocking them during weekends to avoid misuse or unblocking cards that were deactivated after repeated erroneous entering of the pin code.
